

Leak Protection

BUYER'S GUIDE

Every woman's incontinence journey is unique. When it comes to choosing the right leak protection products, you can explore the exact fit and key features you'll need to consider with this guide.

How to get a great fit

Choosing the right size and fit is important for comfort, skin health and leakage security.

Liners

Look for a flexible liner that doesn't sacrifice comfort or absorption. It should be thin and unnoticeable under clothes, yet lock wetness and odor away.

Pads

Select the proper absorbency to get an adequate length and width and a secure fit. However, dimensions can vary by pad type and brand, so check the package.

Underwear

For true comfort and the right protection, choose the fit based on your waist and pant size. Check the product's sizing chart to make an informed decision.

The checklist

Emphasize quality. These are the "must haves" for living confidently with bladder leaks.

Odor control

This is a key concern for most women. Your products should safely, quickly & naturally neutralize odor and lock it away.

Absorbency

Demand a super-effective core designed to instantly absorb and disperse liquid away from the top layer, keeping skin dry.

Leak protection

The best products feature an intentional barrier at the edges to stop leaks and help keep clothes dry and protected.

Skin-friendly

Look for soft, breathable, moisture-wicking materials enriched with things like vitamin E to protect and promote skin health.

It's all in the details

And don't compromise on the specifics and features that you absolutely deserve!

Security

Contoured, discreet fit that protects and stays put no matter how active you are.

Safety

No extra dyes or chemicals that can irritate your skin or impact the environment.

Simplicity

No perfumes or heavy fragrances that mask urine odor rather than controlling it.

Balance

Helps maintain the skin's ideal pH balance and make it more resistant to bacteria.

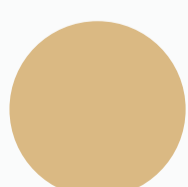

Flexibility

Thoughtfully designed protection with something for everyone and every situation.
